Millets and Mahashakti

Mahashakti Foundation embarked on its journey to promote millets in Bargarh district of Odisha with the support from Millet Mission, Govt. of Odisha and HDFC Bank Parivartan. Beyond their delicious taste, millets offer a plethora of nutritional advantages, including a rich source of essential nutrients like fiber, protein, and micronutrients. Moreover, millets are naturally gluten-free, making them an ideal choice for those with dietary restrictions.

Millets Food Festival on the occasion of Maa Gajalaxmi Mahostshav at Petupali village of Sohela Block Bargarh.

We are thrilled to mention that, Bijepur Block of Bargarh District has been awarded as the best performed block of Odisha in Millets Value Chain Promotion at International Conference of Millets. Principal Secretary, Department and Agriculture and Farmers Empowerment and other dignitaries handed over the award to the block representatives. Mahashakti Foundation is the Facilitating Agency for Bijepur Block and our collaborative efforts on promoting millet eco system has a substantial impact on equity, justice and empowerment.

Millets are found to be helpful with the reduction of weight, BMI, and high blood pressure. Millet is generally consumed with legumes, which creates mutual supplementation of protein, increases the amino acid content, and enhances the overall digestibility of protein.

International Day of Millets was celebrated at Bargarh in association with Ganjam Tiffin Bargarh Odisha.

Ready to eat millet tiffin is being provided by this centre.

Experience sharing of Progressive Farmers, Directors of FPOs, our Team Members regarding Agri Enterprises and Farm Field Schools with State Manager CSR - HDFC Bank Sri Swaroop Sharma and President - Mahashakti Foundation Dr Debasish Mohapatra.

Annual Day-Mahashakti's 19 Years of Transforming Communities

Mahashakti Foundation was an action-packed event!

We had engaging and informative sessions on "climate-resilient agriculture" and "the crucial role of non-profits in empowering communities".

And in the evening, our amazing employees had a splendid evening taking part in cultural programs, creating unforgettable moments together.

Pratignya Trust , Dunguri, Bargarh

Our OFF-Farm Initiatives (Art and Craft)

A capacity building program on palm leaf carving and Pattachitra was organized where market led products were developed with handicraft artisans. Representatives from Corporate Communication of TATA Power and TPCODL visited artisans to understand their livelihood development initiatives supported by TPCODL.

Skill Development Training Program for the Handicraft Artisans of Khordha Dist for their income enhancement.

Project Samridhi of TPCODL is empowering handicraft artisans of Odisha which leads to economic growth at the grassroots level and helps combat poverty, promoting a more inclusive society. Traditional Indian handicrafts and textiles have been passed down through generations, representing the diversity and ingenuity of the country's cultural tapestry. Head L&D and Head CSR of TPCODL visited the Skill Development Training Program of Khurdha Dist.

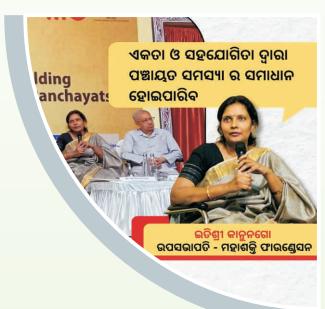

Special Focus

Mahashakti Foundation, in collaboration with CYSD, co-hosted a thematic learning event on December 6, preceding the esteemed Odisha Vikash Conclave on December 7. The event's theme was "Dialogue with Community-Based Organizations and PRI Representatives in Building Resilient Gram Panchayats." The event brings together insightful discussions on the pivotal role of PRI and CBO representatives, exploring how Panchayat and Village-level planning can become more inclusive and effective.

Prospective Planning Workshop

Prospective Plans provide strategies to our team to forecast the vision of the future. The plan is prepared with specific growth objectives. Our board members, top and senior management staff actively participated in a two days prospective planning workshop organized at Natures Camp-Chandaka Resort, Bhubaneswar. Dr. Amulya Mohanty Strategic Advisor, Mahashakti Foundation, Dr. Pradeep Mohapatra and Smt. Itishree Kanungo- Board Members of MSF, Dr. Surendra Jena Professor -KSRM and Dr. Debasish Mohapatra, President Mahashakti Foundation facilitated the program. Many topics such as five year plans, sectoral risks, SWOT analysis etc. were discussed during this program.

Project Peheli Udaan launched by Vedanta Limited - Aluminium Business to help girls accept menstruation as a normal body function and learn how to care for themselves during their menstrual period. Also the program aims to disprove the old taboos, and give girls a thorough, wholesome understanding of menstruation.

Shaktimayee Foundation - SHG Federation promoted by us is targeting 5000 school students

Enterprise Development

Program on Organic Commercial

Vegetable Cultivation organised at Talpadar Village, Bijepur. The program was coordinated by DDM, NABARD, LDM, BAO, Bijepur, Secretary Mahashakti Foundation and Mr Mihir Ranjan Sagar, Agri Expert. Around 30 women farmers from Barguda and Talpadar Village participated in the said training program.

Launching of Climate Resilient Agriculture Project!.

A Climate Resilient Agriculture Project has been launched at the Shila Tower Hotel in Sambalpur, by Mahashakti Foundation, with the support from TPWODL. This project is going to cover 1750 hectares of land of 1692 farmers in 8 Gram Panchayats of Maneshwar block, Sambalpur.

Photo Gallery

A two days non-residential training program on Community Seed Centre Management was organized where officials from Department of Agriculture & Farmers' Empowerment provided their valuable inputs to participants. Mr. Joshua Kyle Leighton, Senior Director, Livelihood and Mr. Diganta Mohanty, Program Director, Trickle Up visited our UPMA Project. During the visit his team interacted with participants , staff members and FPO officials to understand the progress and sustainability strategies.

An important co-benefit of wadi is that it contributes to climate change mitigation by converting atmospheric carbon into tree biomass and soil carbon that act as long term carbon sinks. In the wadi model, the combination of species is selected such that they are suited to the agroecological conditions. AHO Gudvella, Bolangir, Odisha facilitated the capacity building training to the tribal farmers on mix cropping and plant care to get multiple income.

Chilli cultivation is an important aspect of agriculture in India and is widely grown for both domestic and commercial purposes. India is one of the largest producers of chillies in the world and it also multiplies the income of farmers. In this context we are developing a chilli cluster with 200 farmers with the support from Vedanta Limited - Aluminium Business at Lanjigarh Kalahandi. Head CSR Vedanta Lanjigarh joined in the strategic planning sessions on management of the chilli value chain.
